SG 1000 M 50

A Sheer Stable EP Fortified Water Resistant Grease for High Load Applications

Benefits :

- High viscous oil fortified with EP additives enables it to withstand extreme pressure.
- Outstanding shear stability even in the presence of water.
- Excellent water resistance properties.
- Guards against rust and corrosion.
- Solid lubricant MoS₂ provides good antiwear and load carrying capabilities.
- Good pumpability.
- Contains no heavy metals harmful to human health. Environment friendly.

Applications :

- SG 1000 M 50 is suitable for slow moving heavy duty applications in steel strip mills, agricultural machinery, rubber mills, paper mills, cement mills and hot and cold rolling mills.
- For work roll and back up roll bearings, low rpm motor bearings, geared couplings, supporting bearings and various other bearings subjected to extreme pressures or located in shock load zones.
- Product is designed with high base oil viscosity and is therefore not recommended for relatively fast
 moving bearings as the high viscosity in all probability may cause internal friction and lead to increased
 operating temperatures.
