

WAP 100

White Assembly Paste Especially Designed to Meet Non-Staining Assembly Requirements

Benefits :

- Light colour has advantages over dark coloured greases.
- Helps prevent staining during assembly.
- Excellent lubrication properties.
- Finds use as antiseize and anti stick agent.
- Prevents water washout.
- Guards against rust & corrosion.

Applications :

- For Machinery used in textile, paper, printing press, home appliances, office equipment, plastics, food and beverages, instrumentation, optics, electronics, pharmaceutical and related industries where deep coloured lubricants are not recommended.

Characteristics	Test Method	Unit	Specifications
Appearance	Visual	–	Smooth Paste
Colour	Visual	–	Light coloured
NLGI Grade	–	–	# 2/3
Worked Penetration	ASTM D-217	0.1 mm	250 – 280
Water Washout @ 80°C, wt. loss	ASTM D-1264	%	< 2.5
Surface Area Coverage	*CTM	m ² /kg	40 - 45
Operating Temperature Range	–	°C	-25/+250

*CTM=Corporate Test Method

Mode of Application :

Old preventive coatings or residue of existing grease to be completely removed, preferably with a good quality cleaner Recommended **MOLYGRAPH® E-Kleen**. Apply a thin coat of **MOLYGRAPH® WAP-100** paste with a rush or soft dirt-free cloth.

Marginal variation in shade can be expected from batch to batch. The color has no effect on the lubricating properties of the product.
