

## ASW 200

*High Performance Anti-spatter Liquid*

### Benefits :

- Prevents spatter build-up on the surfaces to be welded.
- Avoids spatters from sticking inside of the nozzles of MIG welding torches.
- Avoids flying metal particles from sticking on the parent metal.
- Eliminates need for hard chipping and grinding after welding.
- Provides good wetting properties.
- Promotes quality weld due to non-buildup of spatters.
- Low down time provides increased production efficiency.
- Gives aesthetic look to finished jobs.

### Applications :

- For all types of welding.
- Highly effective on MIG, TIG & SMAW welding.
- For applying on sides of the 'to be welded' surfaces.
- On nozzle tips prevents clogging of nozzles in **MIG** welding.
